Internship

Cyber Security Intern -Tech Avanto

Aug – Oct 2024

- Completed a 6-week intensive training on cybersecurity fundamentals, focusing on network security, penetration testing, incident response, and system hardening. Accelerated incident response by 50%, reducing the time required to detect and mitigate malicious activities.
- Engineered a real-time Honeypot intrusion detection system, capturing many unauthorized access attempts and boosting threat intelligence efficiency by 40%.
- Gained hands-on experience with Linux security configurations, Virtual Machines, and network protocols, optimizing firewall rules and access control mechanisms, reducing security gaps by 20%.
- Technologies Used:** Python, Paramiko, Threading, Virtual Machines, Linux, Intrusion Detection, Threat Intelligence, Network Security, Incident Response, Penetration Testing.

Projects

Intrusion Detection System | Snort, Linux.

May 2024

- Collected and preprocessed network traffic data.
- Implemented anomaly-based and signature-based detection techniques.
- Trained and tested the model using a relevant dataset.
- Developed a real-time packet analysis and threat classification system.
- Integrated logging and alert mechanisms for detected intrusions.
- Evaluated performance metrics such as accuracy, precision, and recall.
- Optimized feature selection to improve detection efficiency
- Technologies used :** Snort tool, Wireshark, Scapy, TCPDump, Syslog, Elasticsearch

Restaurant Website

March 2023

- Designed and developed a responsive HTML-based restaurant website, "KNK Restaurant," enhancing user engagement.
- Created an intuitive menu layout showcasing Chinese desserts, South Indian, and North Indian dishes with pricing.
- Implemented a structured contact page and integrated social media links to improve accessibility.
- Optimized website design for user experience and mobile compatibility, ensuring seamless navigation.
- Enhanced aesthetics with CSS styling to provide a visually appealing interface..

Certifications

- | | |
|--|----------|
| • Cloud Computing by NPTEL | Dec 2024 |
| • Ethical Hacking Essentials (EHE) from Coursera | Nov 2024 |
| • Digital Forensics Essentials (DFE) from Coursera | Nov 2024 |

Technical Skills

- Languages:** Python, C++, Java
- Frameworks:** Html, CSS
- Technical Skills:** Cyber Security, Linux, Network Security, Threat Analysis, Risk Management
- Tools:** Wireshark, Nmap, Netcat, FTK Imager, Tcpdump, Cisco Packet Tracer
- Soft Skills:** Problem-Solving Skills, Team Player, Project Management, Adaptability, Quick-Learner

Education

Lovely Professional University Punjab

Jalandhar, Punjab

- Computer Science and Engineering -CGPA:5.9

Since Sept 2022

KKR Gowtham school

Visakhapatnam, AP

- Intermediate XIIth; Percentage: 100 %

Apr 2020 – Mar 2022
